Industries We Serve

About Us.

Rokhadiya Enterprise is a professionally managed service provider based in Ankleshwar, Gujarat, one of India's leading industrial hubs. Having more than 10 years of experience, we specialize in delivering reliable and high-quality industrial and decorative painting services to a wide range of industries.

Our team consists of trained and experienced professionals who understand industrial standards, safety practices, and quality requirements. Over the years, we have successfully supported industries such as chemical, pharmaceutical, glass, and paper manufacturing, helping them maintain their infrastructure and protect their facilities from corrosion and environmental damage.

With a strong focus on quality workmanship, timely project completion, and customer satisfaction, Rokhadiya Enterprise has built long-term relationships with clients by consistently delivering dependable painting and maintenance solutions.

Mission & Vision.

MISSION

- To provide high-quality industrial and decorative painting solutions that meet industry standards.
- To ensure maximum customer satisfaction through reliable service and timely project completion.
- To maintain high safety standards and professional workmanship in every project.
- To build long-term relationships with industries through trust, consistency, and performance.

VISION

- To become a trusted and recognized painting service provider for industries.
- To continuously improve our technical expertise and service quality.
- To expand our services while maintaining efficiency, safety, and reliability.
- To contribute to industrial growth by providing professional surface protection solutions.

Our Philosophy.

At Rokhadiya Enterprise, we believe that **quality, reliability, and customer satisfaction** are the foundations of a successful business.

Our philosophy is centered on understanding the specific requirements of each client and delivering solutions that are practical, durable, and cost-effective. By maintaining strict safety practices and skilled workmanship, we ensure that every project is completed with professionalism and dedication.

Our aim is not just to provide services, but to become a trusted partner for industries we work with.

Our Services

Rokhadiya Enterprise undertakes turnkey projects in industrial painting , decorative painting, coating, flooring, and surface protection using high-quality materials and proven application methods. Our services are designed to enhance durability, chemical resistance, waterproofing, and structural protection for industrial facilities.

1. Surface Preparation & Painting Services

Industrial Painting

Industrial painting is carried out through a systematic process to ensure long-lasting surface protection. The process begins with surface preparation using **sand blasting or scraping** to remove rust, old coatings, dust, and impurities. This is followed by surface cleaning to ensure proper adhesion. A suitable industrial **primer** is then applied to protect the surface and enhance bonding. Finally, protective coatings such as **Synthetic Enamel Paint, Epoxy Paint**, or other industrial-grade coatings are applied depending on project requirements and environmental conditions.

Decorative Painting

Decorative painting improves both the appearance and durability of buildings. The process includes surface preparation and **white wash**, followed by **Birla Putty** application to achieve a smooth and even wall finish. A **primer** coat is applied to improve adhesion, after which high-quality **interior and exterior paints** are applied to provide an attractive and long-lasting finish.

2. Industrial Coating & Flooring Systems

We offer advanced industrial coating and flooring solutions designed to provide protection against chemicals, corrosion, abrasion, and heavy industrial usage.

Polyurea Coating

Rapid curing, UV-stable waterproof coating with excellent crack-bridging, chemical, and abrasion resistance.

Applications: Sewer linings, roofs, containment areas, industrial floors, and parking decks.

PU (Polyurethane) Flooring

Seamless flooring system with high impact and chemical resistance.

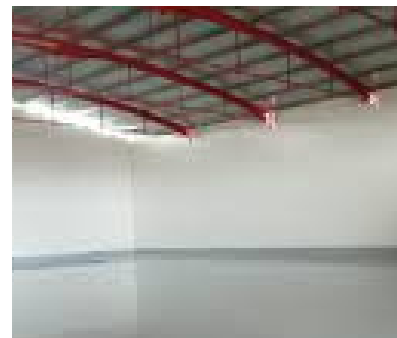

Applications: Manufacturing units, warehouses, chemical plants, and processing areas.

Self-Leveling Epoxy Flooring

Smooth and hygienic epoxy flooring resistant to oils, grease, and chemicals.

Applications: Pharmaceutical plants, laboratories, hospitals, and food processing facilities.

ESD Self-Leveling Flooring

Electrostatic conductive flooring used in static-sensitive environments.

Applications: Electronic manufacturing units, computer rooms, testing labs, and hospitals.

Acid Resistant Flooring

Special epoxy flooring designed to withstand concentrated acids and aggressive chemicals.

Applications: Chemical storage areas, containment zones, and industrial plants.

Anti-Corrosive Coating

Protective coatings that prevent corrosion caused by chemicals and atmospheric exposure.

Applications: Chemical tanks, MS structures, pipelines, and industrial equipment.

Fireproof Coating

Fire-resistant coating that protects structures from high-temperature exposure.

Application:

PPG Lining

Chemical-resistant protective lining for surfaces exposed to inorganic chemicals.

Applications: Chemical tanks, effluent pits, drains, and chemical handling areas.

Scaffolding Support

To support painting work at height, we also provide safe and reliable scaffolding services.

Our scaffolding services include:

- Installation and dismantling of scaffolding structures
- Safe platforms for industrial painting work Support for maintenance and construction activities
- Compliance with safety standards
- This ensures efficient and safe execution of painting projects.

Chemical Supply

We are also engaged in the supply and distribution of industrial chemicals, primarily serving the textile and allied industries.

Our key product range includes:

Textile Chemicals : Supply of various chemicals used in textile processing such as dyeing, printing, finishing, and fabric treatment. These chemicals support efficient production and help achieve desired fabric quality and performance.

Textile Auxiliaries : Provision of textile auxiliaries including wetting agents, dispersing agents, leveling agents, and other specialty additives that assist in improving processing efficiency and overall textile finishing results.

Safety & Compliance

Safety is a top priority in all our operations. We strictly follow industrial safety standards and statutory guidelines to ensure safe working conditions at project sites.

- ✓ **Dedicated Safety Supervision**
- ✓ **Workplace Safety Training**
- ✓ **Compliance with Industrial Safety Norms**
- ✓ **Dedicated Safety Officer**
- ✓ **Scaffolding safety measures**

A qualified Safety Officer supervises site activities to ensure safe working practices and compliance with industrial safety standards. Regular safety briefings and basic safety training are conducted for workers to ensure hazard awareness and safe operations.

Industries We Serve

We provide services to industries such as:

- Chemical Industries
- Pharmaceutical Industries
- Paper Industries
- Glass Industries
- Engineering & Manufacturing Units
